

Studio Procedures and Protocols

Updated March 28, 2022

Dear parents, dancers, and community members,

As things slowly start returning to normal, we'd like to provide an updated list of expectations in and around the studio. As always, the safety and success of the dancers is our utmost priority, and we hope it's obvious why we're continuing with the following protocols to fulfill that purpose.

SANITIZING AND CLEANING

- Floors will be sanitized in between each class
- High touch points will be sanitized every half hour to reduce germs and viruses

MASKS AND FACE COVERINGS

- Masks are now optional for all dancers and staff

SPACES, ENTRANCES, AND EXITS

- Separate entrances for each class, with punctual start and end times
- Dancers only inside the studio (including the lobby and common areas)
 - This allows the dancers time and space to gain independence and spend quality time with their dance family.
 - Lots of our older dancers have breaks for eating dinner and completing homework. Having our common spaces be for dancers only allows them to have a quiet and productive space to be themselves!

As always, thank you for your support. We have learned so much over these past two years, and some things have made the studio better for everyone.

**Regards,
AOD Staff**
